

Level 3 Food Safety for Engineering and Contractors.

Type: CPD Level 3 Accredited Award

Guided Learning Hours:- 1 Day

Who is the award aimed at?

This 1 day course is designed to develop engineering awareness of food safety issues in a typical food manufacturing environment. Using group exercises and real life scenarios the course will improve knowledge of potential hazards.

What Can Students Expect to Learn?

It is expected that the delegate will understand:-

- Food Safety and the law.
- Responsibilities and Good Manufacturing Practice.
- HACCP.
- Cross contamination risks.
- Allergen awareness.
- Hygienic design.
- The BRC requirements of engineering.

How is it assessed?

Assessments of the delegate's progress will be the successful completion of classroom based activities documented in the course work-book.

Course Includes:-

Course notes and work-book.

Course Venue:-

Training can be held on-site or at our purpose built training academy at our Warrington HQ.

Please contact our training team using UK-foodacademy@christeyns.com or via your Technical Sales Manager.
