

Level 2 Award in the Control of Substances Hazardous to Health

Duration 1 Day

Target Audience

This qualification is aimed at individuals who work in an environment where coming into contact with hazardous substances is likely. This includes workplaces in areas such as manufacturing, cleaning, healthcare, transport, utilities and office environments.

Course Description

The qualification provides learners with the knowledge and skills needed to recognise the risks associated with hazardous substances and how to control them. The objective of the qualification is predominantly to support a role in the workplace, however may also be suitable for younger learners preparing for employment or wishing to progress onto further learning in a related subject.

Learning Outcomes

At the end of this training course, learners will understand:

- The law relating to hazardous substances in the workplace
- How risk assessments contribute to the safe use of hazardous substances in the workplace
- The precautions and procedures necessary to ensure that risks associated with hazardous substances are properly controlled

Assessment - A 30-minute multiple-choice examination, where learners must answer 9 out of 15 questions correctly to pass.

Certification/Accreditation - Highfield
