

# Train the Trainer

**Duration** 2 days

## Target Audience

This course has been developed for anyone who will undertake the responsibility of teaching others, including those who need to pass on particular skills and knowledge.

## Course Description

Day one of this course covers the learning elements. On day two, the students will each deliver their own short training course which will be assessed by the tutor, on delivery style and meeting the needs of the learner.

## Learning Outcomes

At the end of this course, the learner will be able to:

- Explain the differences between training, instructional training and coaching
- Examine the qualities of effective trainers
- Identify the strengths and weaknesses of different training and delivery methods
- Describe three learning styles the how they support the learners' experiences
- Explain two methods of making the training interactive and engaging
- Describe three questioning techniques and why they are used
- Demonstrate how to plan, deliver and evaluate the training

**Assessment** - Students are assessed on the delivery of their own short training course on the second day

**Certification/Accreditation** - CPD
